

# Executive Factsheet

Developing  
Solutions,  
Made Possible

## About

NYROBEONKA is a movement driving financial empowerment through the ORBS system. This Sharechain-enabled system employs Technology-Centered Sharing™, our proprietary methodology for identifying and implementing impactful fintech innovations to expand access to capital.

## Problem Statement

Inequities between consumers, businesses, and financial institutions fuel mistrust, restricting capital access and distribution, limiting development in underserved communities.

## Proposed Solution

Our Sharechain-enabled system expands capital access, builds equitable relationships between residents and financial institutions, and drives economic growth through resident-led redevelopment.

## USP

Our Sharechain-enabled system integrates crowdfunding, alternative financing, and specialized financial products to reduce borrowing risk and create diverse pathways to capital. This empowers communities with greater financial solvency and facilitates equitable, resident-led redevelopment.

## Opportunity

The multi-trillion-dollar US tech startup market presents a significant opportunity for ORBS's Sharechain technology to drive a paradigm shift. Our Technology-Centered Sharing™ methodology enables a sharing-based economy, influencing diverse industries with solutions that address capital scarcity and foster collaborative growth
